

REPORT ON TENTH YEAR OF ACTIVITY WESAK 1991, 28th APRIL

Dear friends and co-workers,

Expansion of the newsletter from 1 to 12, than back to 8 pages. Issues in 4 languages (English, French, German, Spanish), includes in serial form courses by teachers of the World Teacher Trust on Symbolism of the Scriptures, New Era Healing and Spiritual Astrology. Also sections on books for world servers, news from the United Nations.

Network now in 40 countries in all continents. Branches in Europe (Germany, Switzerland, Italy, USSR), in Africa (Nigeria). Contacts in North and South America (USA, Mexico, Costa Rica, Venezuela, Brazil).

Strong decentralization. The task we assumed, of spreading the teachings of the Masters, in particular on the 10 seed-groups, is taken up by more and more groups in many countries. This explains the many contact addresses we have, of people and groups that translate and distribute our publications.

Production of radio broadcasts on 10 seed-groups for Radio For Peace International, short wave station in Costa Rica.

Participation in conferences all over the world, also as speakers.

Accent on political and educational fields.

Support for other organisations, financially, in organisational matters, spreading of information on various worthwhile projects.

Shift of emphasis from organisation of conferences and seminars, especially with teachers from the World Teacher Trust, to networking (passing on information, serving as intermediaries between different groups, promoting cooperation in all circumstances for greater efficiency and impact on public consciousness).

ACHIEVEMENTS in the 10th year of activity

— We have continued to spread on a global scale the information material of the IPS/WTT. This includes publication of two new booklets in French: "The Science of Psychology" and "The Science of Triangles", the publication of the whole series on the 10 seed-groups in Dutch, completion of the series on the 10 seed-groups in Spanish.

— Intensification of contacts with Eastern Europe, in particular the USSR, where an IPS group has formed.

— Creation of branches of the IPS in Italy, the USSR, France; contacts in Brazil, Mexico, Spain.

— Participation in group meetings and conferences to put forward the idea of the 10 seed-groups and its importance for the New Group of World Servers today.

— Extension of our broadcasts for Radio For Peace International. Two interviews were made with Ms. Lisinka Ulatowska from the World Citizens' Assembly as interviewer. Ms. Sanda Freeman-Kowalchek has offered to help produce a broadcast version of the newsletter as well.

— Workshops and lectures on the 10 seed-groups in Germany, Austria, Spain, the USSR.

— Organization of the lending library, and cataloguing on computer its English section.

— Acquisition of a new photocopying machine able to print in black and in blue.

— Acquisition of a fax machine, that has already proved a great help in communications.

— Printing by co-workers of Centro de S'ntesis Darjeeling of the poster on "The New Group of World Servers" in Spanish.

PLANNED FOR the 11th year of activity

— Reprint of studies on the sciences in German, which are running out of print.

— Participation in the United Nations Conference on Development and Environment, in cooperation with the World Citizens' Assembly.

— Creation of new branches of the IPS: Africa, Brazil, India, according to proposals made by co-workers in these areas, which are now under study.

— To organize and catalogue on computer our lending library.

— To catalogue on computer our archives on group activities throughout the world according to the 10 seed-groups.

— Reprint of the poster on "The New Group of World Servers", with minor corrections.

- 17.04.91 Group meeting with members of "East Meets West Friendship Network" in Budapest, Hungary
- 18-26.04.91 Working journey to Moscow

In the past 10 years, our work has undergone many changes. The keynote, however, has remained the same: spreading the 10 seed-group structure by all possible means. Our network now has members in 40 countries in all continents. Branches have been created in Europe: Germany, Switzerland, Italy, France, USSR; in Africa: Nigeria. Many contacts were established in North and South America: the USA, Mexico, Costa Rica, Venezuela, Brazil. Our work is characterized by strong decentralization. The task of spreading the teachings of the Masters, in particular on the 10 seed-groups, is taken up by more and more groups in many countries. Since all friends and co-workers are free to develop their own creativity, many prefer not to create IPS branches, officially, but to integrate the IPS aims into their own group activities. This explains why we have so many contact addresses, of people and groups that translate and distribute our publications.

Over the years, the emphasis in our work has shifted from the organisation of conferences and seminars, especially with Dr. E. Krishnamacharya and other teachers from the World Teacher Trust, to networking: the passing on of information, service as intermediaries between various groups, the promotion of cooperation in all circumstances so that the New Group of World Servers may have greater efficiency and impact on public consciousness. Our accent is now mainly on the political and educational fields.

In the field of communications, we have produced radio broadcasts on the 10 seed-groups for Radio For Peace International, a short wave station in Costa Rica. Our newsletter, which started with 1 page, expanded up to 12 pages every 3 months, and has now been

reduced for about 8 pages every 3 months. It is issued in four languages: English, French, German and Spanish, and includes in serial form courses by teachers of the World Teacher Trust on Symbolism of the Scriptures, New Era Healing and Spiritual Astrology. It contains sections on the meditations and group activities we have participated during a period of 3 months, sections on recommended books for world servers and news from the United Nations. The newsletter is also used as an instrument to spread information on various worthwhile projects from various groups.

Our cooperation with other organizations includes, besides this spreading of information already mentioned, financial support, help with organisation and participation in conferences in various parts of the world, also as speakers.
