NEWSLETTER No. 9

Dear Friends and Co-Workers,

To begin this issue of our Newsletter, dealing with various activities of the IPS, we would like to invite everyone to reflect conjointly upon the following words taken from Fiery World III, 376, by MM:

"The strata which humanity creates, surrounding the planet with them, become more and more congested, because that life which has been instituted on the Earth hinders not only spiritual discharge but also the physical. The conformity between the Worlds in Space thus depends upon the saturation of these strata. In cosmic space each manifestation calls up an entire chain of effects. And the atmosphere of the Earth forms, as it were, a crust, spotted with dark stains. Knowing how much the Worlds are in need of nourishment by the higher energies, one can imagine the effects of such isolation! Those who stand on Eternal Watch direct the rays of Light, straining all their forces. On the path to the Fiery World let us manifest understanding of this tension in which the Forces of Light are saving the planet."

In short, this time our work incorporates the following points:

1. Proposal and inquiry to partake in the yearly conference of the IPS
2. Contacts with far-sighted groups
 - a) International Creative Centre
 - b) ECOSOC - Commission on Human Rights, United Nations Geneva
3. A suggestion of the World-Teacher-Trust, for a beneficial study of the books by Master Djwhal Khul
4. A proposal and consideration; contributions of co-workers and friends

5. Organisational concerns

- a) Preview of the IPS programme
- b) Study-sets for the ten seed groups
- c) Preliminary announcement of Dr. Ekkirala Krishnamacharya's Eurotour
- d) Site acquisition for the IPS

1. Proposal and inquiry to partake in the yearly conference of the IPS

By Wesak 1982, the IPS will be celebrating its first year of existence and according to our Statutes, there is a principal conference to take place once a year. Therefore our inquiry to all members, co-workers and friends, to air their thoughts and ideas relating to such a reunion; how possible contributions towards this group work would be made. Attached you will find an answer sheet and we would like to ask you to return it to us at the latest by the end of March 1982. A programme of the conference will be sent to all interested in approximately 3 - 5 weeks.

2. Contacts with far-sighted groups

During January we received an invitation to a world-wide work of synthesis, in the form of a 'formation' conference, by the group "International Creative Centre" here in Geneva. The meeting's aim was to elucidate the campaign 'DAY OF PEACE' planned on May 4th, 1982 in Paris. Before dealing in greater detail with this global activity we would like to describe briefly the ICC and its function.

As early as 1943 this 'international creative centre' was established in Switzerland. It thus portrays fundamental pioneering work in the direction of planetary synthesis. The founder, Dali Schindler, had recognized already at that time the necessity to cooperate globally with international, non-governmental organisations and groups under the motto: "To build the future in order not to be subject to it."

This group thus strives for world-wide cooperation and has already introduced many activities with more or less success and good experience.-

This time, the 'Day of Peace' is being proclaimed on May 4th, 1982; the idea being supported by Martin Grey, Gérard Blitz and Jacques Sordes.

Moreover, cooperation and synthesis is sought with all groups and organisations that already work in this direction, as for example the UN, UNESCO, the Red Cross, religious groups, Amnesty International and many others.

Jacques Sordes has also written a book by the title 'Le secret de l'univers' (The Secret of the Universe). In it he describes how spiritual life can be successfully shaped. That he does in bringing nearly all the examples from his own life experiences,

thus emphasising a realistic vitality. At this moment it is not known if this book is already available in other languages other than French.

An IPS co-worker in Paris has entered upon cooperation with this preparatory group work. - The idea for the 'Day of Peace' reads as follows: "An Appeal for a World Peace Day' in order to launch a peace movement encompassing everyone of the approximately five milliard planetary citizens. Thus, to direct a 'PEACE DECLARATION' towards those 200 people who control the other five milliards." ---

Through the World Association of World Federalists an invitation was received to participate at the 38th Session of the Human Rights Commission in Geneva. This conference started on February 1st and is continuing through to March 12th, 1982.

From the observer standpoint and mainly from the esoteric side we want to look at this international group work subsequently. However, first some important items of activity in order to facilitate projection into this special session for all those interested.

The work runs under the Economics and Social Council (ECOSOC) of the United Nations and represents among other themes of work, the following:

- Question of the violation of human rights in the occupied Arab territories, including Palestine
- The right of people to self-determination and its application to peoples under colonial or alien domination or foreign occupation
- Question of human rights in Chile, Cyprus and apartheid in South Africa
- Question of a convention on the rights of the child
- Human rights and scientific and technological developments
- Minorities, national - religious - linguistic - ethnic
- Question of the human rights of all persons subjected to any form of detention or imprisonment, in particular: a) torture and other cruel, inhuman or degrading treatment or punishment, b) question of missing and disappeared persons.
- Further promotion and encouragement of human rights and fundamental freedoms, including the question of the programme and methods of work of the Commission.

This represents not even one third of the points that make up the agenda. With two conferences daily, everyone is concerned to reach the aimed-at goal, that is, to listen to the many sided conversations given by the numerous delegates coming from all parts of the world in order to make decisions accordingly.---

It is of very special interest to our synthesis work to recognize increasingly the various qualities of consciousness with which the representatives of the diverse nations are endowed

with, in order to learn how to make use of the Hierarchical means with the highest possible effectiveness and towards Planetary Synthesis.

Besides the two dominating influences of Pisces and the dawning of the age of Aquarius, i.e. authoritative centralisation and decentralisation beyond boundaries respectively, we can basically observe three qualities of consciousness:

a) young forces, mainly from African and Arabian origin are prepared to draw a clear and final line under all that which lies behind us, in order to tread upon new ways very concretely and freely, having in mind human rights. These young people no longer agree merely to hold negotiations in which the various delegates reproach each other for the faults which they have committed in order to then point out the human rights to one another, whereby no changes are being demonstrated towards increasing humaneness. These young and very dynamic delegates with new Spirit tendencies demonstrate political will as well as the will-to-good.

b) Another group degrades this international platform for purely national and political interests who apparently have not understood the global character, transcending nationalism.

c) The third group represents one kind of forces which bring in continuously and repeatedly good suggestions, having in mind human rights. Thereby a certain status quo is created and crystallisation can be felt. Those representatives of the various nations cannot furnish the proof that in their countries these positive suggestions are in fact being put into practice. This is probably the reason for their clinging to the word - say empty talk -. To such groups can be counted mainly older delegates, who are clearly standing under the influence of Pisces. They defend themselves with their whole potency of their past experiences against the new - to them totally incomprehensible - uncomplicated approach of the Aquarian wave of transnational, right human relations.

We would like to insert some words from the Tibetan teacher D.K., so that additional impressions in connection to the Human Rights Commission can be followed up. Djwhal Khul says in 'Telepathy and the Etheric Vehicle', p. 180-181:

"(Every) centre has within it a point of life and is related to all surrounding energies; it has its own sphere of radiation or of influence which is dependent upon the nature or strength of its consciousness and upon the dynamic conditioning factor of the ensouling entity's THOUGHT LIFE. These are points worthy of your most careful consideration. Finally, every centre has its CENTRAL TRIANGLE of energies; one of these energies expresses the ensouling life of the form; another expresses the quality of its consciousness, whilst the third - the dynamic, integrating life which holds form and consciousness together in one expressive livingness - conditions the radiation of the form, its responsiveness or non-responsiveness to the environing energies and the general nature of the informing life, plus its creative ability."

"Bear in mind also that the life which pours through all centres and which animates the whole of space is THE LIFE OF AN ENTITY; it is, therefore, the same life in all forms, limited in time and space by the intention, the wish, the form and the quality of the indwelling consciousness; the types of consciousness are many and diverse, yet life remains ever the same and indivisible, for it is the ONE LIFE."

The Great Invocation had been channelled into the Human Rights Commission.

Clear indications seem to become prominent within the 'structures' of the UN, that point towards the end-fight between the forces of Pisces and those of the Age of Aquarius. Far-sighted pioneers in top positions are at present extremely 'endangered' when they disclose too much of the truth and they risk openly and humanely their positions.

A rejuvenation process - world disciples increasingly become influential and last but not least, through the Non-Governmental organisations - in a spiritual sense this seems to intersperse the UN increasingly and dynamically so. New age disciples who UNDERSTAND and LIVE that which they understand, change the mental atmosphere even though often with great opposition caused by separating forces.

One gets also the impression as if the world disciple - humanity - is now working for right human relationships in the UN as a New-Age-Basic-Model, ready to be spread over the whole of humanity. While conflicts are rather on the increase, the aim is always - even with different kinds of thought patterns and interests - to negotiate in a decent and respectable way with each other towards useful results.

In this way for example, the Italian delegate spoke about a New Humanism; the representative of Senegal - who's speech was very impressive - declared that nobody should be sacrificed for ideologies. He further stated that structures should be controlled, brought to life and fortified whereby no country makes an exception, i.e. all of them breaching the human rights in one way or other. - The Russian delegate mentioned Good Will as well as readiness for cooperation. Some of the delegates - Cuba, USA and Israel - quoted from the Bible - Mathew. The representative from Brazil finally stated that the human rights must keep political influence at the background.

An atmosphere of Self-Discovery can at any rate be felt strongly within this Commission and it is this which is giving us the joy and the hope that intensified right human, national, and international relationships will follow.

This serves both as a suggestion and as a possible stimulation for future contributions on global situations, giving an idea of how they could be formulated. - We also happily expect additional ideas and suggestions or already finished compositions at any time.

5. Organisational concerns

This time a programme outline of the IPS is sent out for information with this letter, the way it was sent to the Fèdération des Institutions Internationales - FIIG (International Federation of Institutions Geneva) and the International Bureau of Education (UNESCO), to give some examples.

The study set for the ten seed groups is progressing. We would like to announce which manuals are so far available. They will be mailed out upon request:

- Telepathic Communicators *
- Trained Observers
- Magnetic Healers *
- Workers in the Field of Religion
- Creative Workers

(* presently available in English)

The study "Educators in the New Age" is presently going through final proof reading in German. The remaining manuals will follow as soon as possible.

Preliminary announcement - Dr. Ekkirala Krishnamacharya's Eurotour:
With great joy we are able to announce one more work-tour of Dr. E.K. for the coming fall. A detailed programme will be sent to you around July this year. For all friends and co-workers who are planning a group cooperation now, we would like to announce the following schedule: Dr. E.K. will be starting this year's group work in Munich from the 17th till 26th August. Thereafter continue on in Geneva from August 28th till September 6th. He will be in Lyon from September 10th till 19th. Subsequently between September 21st till October 1st in Belgium. There will be a direct translation to German in Munich and in Geneva, Lyon and Belgium there will be translation in French. We would be very happy to welcome many 'old' and also new friends to this group work.

Site acquisition

The owner of the estate 12, chemin des Manons - where we are at present accommodated with our IPS, - made it known to us some days ago that by July this year a decision will be made on the sale of this property.

Last October it was promised to us that by a possible sale the first option would be given to us.

As soon as more details are available we will let the group know as quickly as possible.

Our thoughts on the matter is that the IPS does not necessarily have to be the buyer; it can once again be the tenant, in case one of our friends would like to acquire this property.

With these news we send you all much Light and joyful greetings from Geneva
